Subject: Notes of our phone meeting today

David, here are the taling points that guided our meeting today, June 5. Thank you, I truly appreciate your openness, time and professionalism in representation Shelby County Mayor Mark Luttrell.

It is important to note, because it is not listed in the notes, that we did discuss the overall goal of what we needed from Mayor Luttrell; e.g, the authority and support to help us get a highly influential group of people to serve on the Board of Directors for the Dr. Martin Luther King, JR, American Dream and World Peace Initiative. We have already gotten the support of Governor Haslam and past members of the Shelby County and Memphis City Council to support Dr. Nkosi Ajanaku, Esquire, and his basic research on Humaculture. His basic research provides the diagnosis and remedies for how Shelby County and Memphis can be the Model County and City for living out the American Dream. The magnitude of this is major and has implications locally, within the State of Tennessee, the Nation and the World. It is designed to leave out noone!

I have also included background on the Chief Basic Researcher, Dr. Nkosi and his research, proclamations and resolutions of support. Additionally, I have attached a draft letter that was prepared for the signature of both Mayors Luttrell and Strickland last year, to be a reflection of the verbal agreement that both gave to State Rep. Barbara Cooper. I am also copyng Rep. Cooper and CME Bishop Edward Lynn Brown, whose interest I have also been authorized to represent relative to this Initiative in Memphis and Shelby County, TN.

Stan Hyland also is to be acknowledged for his support of Dr. Nkosi's research. He is still at the University of Memphis, and it is important to get the Chamber of Commerce involved.

In contacting Fred Smith please give him Dr. Nkosi's contact information: (404)755-4342 home

The talking points are as follows:

The Mayor knows Dr. Nkosi. Saulsberry brought him over to meet with Dr. Nkosi. We talked about it then. We are glad to have his support and this is what we need to make Memphis and Shelby County the model City and County.

Dr. Nkosi went to school on a Jewish scholarship. Additionally, it was the Jewish Family who gave him the first piece of advice on how to organize his own family (AA) and the Whole American Family.

Those people involved were: Abe Waldaur, Reginald Wurzburg, Pitt Hyde and Carol Jenkins. Their advice turned Dr. Nkosi around.

We want the Mayor to give them special attention. (Three of them are dead). We want to get this information (what they did for him) to the Jewish Family across the country. Especially, we want Pitt Hyde and the Jewish Family to be actively involved. The American Dream takes care of all of this. Pitt Hyde got King Museum up and we want him to move to Human responsibility'

Fred Smith is European American and Dr. Nkosi met with him in March 1982 after the Jobs Conference. When the Conference broke up, Dr. Nkosi (who was a committee chair) met with Fred Smith and gave him what happened to the AA family and why we are now in the condition we're in. Dr. Nkosi got the support of Fred Smith who agreed to go into business with him. It's been a long time and we have not been able to get to him.

We want Fred Smith to play a role in the Initiative. Get him to get to President Trump and get the Mayors to have Fred Smith to call Dr. Nkosi.

We want to show appreciation for everyone on the jobs conference. The community needs to know that the Jobs Conference gave Dr. Nkosi what he needed to develop his research.

We need to get to the media before the 20th of June.

Finally, Mr. McKinney, you can play a special role for yourself around the theme of All Lives Matters.

Thanks again, I look forward to hearing back from you before you talk to Mayor Luttrell on Friday.
